

Trade Compliance for Cloud Native

Ulf Kjören

Trade Compliance view

- Sanctions – No difference for Cloud Native
- Import – Not impacted
- Export- Cloud Native is impacted

Cloud Native Computing Foundation

Standardization community for Cloud Native

700 members, including Ericsson, Ericsson partners, competitors and customers

- Build a SW Application based on Opensource SW in CNCF (US)
 - Required to not be subject to the EAR (Export Administration Regulations), and not breaking any Sanctions.
 - If you do everything openly and invite anybody to your meetings, publish all info and results openly
 - Standard price
 - No private distributions
 - SW easy install
 - Encryption is not easy to changed by user
 - ...

Simple and efficient – depends on...

- Development in Cloud Native Compute Foundation - USA
 - Development – no export
 - Usage of CNCF own Micro Services – no export
 - Export of final product from USA follows US export and re-export regulations
 - Updates / upgrades also follow US export and re-export regulations

Simple and efficient – depends on...

- Development in Sweden
 - Development in Sweden - no export
 - FOS/COTS MS Export no problem from US to Sweden
 - Final product Export, is subject to Swedish export regulation.
 - Updates / Upgrades subject to Swedish export regulation.
